

WAY 2XUSB-A 12W CAR CHARGER

CHARGE UP TO TWO DEVICES AT THE SAME TIME!

Charge up to 2 devices while driving!

This discreet and compact car charger will merely charge your smartphone and more while you are driving. You just need to plug it on any cigar-lighter socket as long as it delivers 12 or 24V.

Thanks to its 2 USB ports, this car charger will deliver power up to 2.4 amperes (if your device allows it). It also has the AUTO-ID technology: it provides an optimal energy supply by automatically detecting the voltage your device really needs.

Therefore, you can charge your smartphone, while supplying another mobile or your GPS for instance.

Fast and compact!
